

Rachel VanHorn

Week 16 FE Research

Prompts

1. What are 3 other features of React Router that we did not cover this week?

- There are a lot of features of React Router that were not covered. These include nested routing, data loading and error handling.

2. Choose 3 React Bootstrap components and describe how they are used. You can use code examples.

- <Offcanvas/> opens up a side bar that you can put images or links inside
- <Carousel/> creates a slideshow of elements like images or text
- <Accordion/> a collapsible component that can drop down when a user clicks on it to show more information

3. What is a highlight of what you have learned this week?
